EDUCATION

Amrita Vishwa Vidyapeetham

Bachelor of Technology, Computer Science - **GPA - 7.6**

Specialization in Artificial Intelligence

Oct. 2022 – May 2026

Chennai, Tamil Nadu

Sri Chaitanya

Higher Secondary Education (XII) - **87.5%**

June 2021 – April 2022

Chennai, Tamil Nadu

PROJECTS

College Recommendation System 🔗 | scikit-learn, seaborn, sentence-transformers

June 2025

- Developed a comprehensive ML-based system to generate personalized college recommendations using student profiles, academic scores, preferences, and career goals.

Multi-Functional Car Insurance App 🔗 | Python, OpenCV, SQLite, LangChain

April 2025

- Developed an AI-powered car insurance platform with four modules: NLP chatbot (Groq LLaMA-3), YOLOv8-based damage detection, face recognition with plate matching, and OCR-based number plate extraction.
- Automated claim assessments, enabled instant policy insights, and achieved 90% plate recognition accuracy with secure multi-factor user verification.

AI Travel Planner 🔗 | serpapi, BeautifulSoup, Groq

February 2025

- Using the Groq API, the project develops a multi-step prompt system for creating individualized travel itineraries.
- Using SerpAPI, the system gathers pertinent information in real time to provide search results for destination photos, top hotels, attractions, and restaurants.

EXPERIENCE

Bayes Labs

October 2024 - December 2024

Role: *Research Intern*

- Developed AI-powered Multi-Agent Systems to automate customer query resolution and enhance decision-making workflows.
- Built Retrieval-Augmented Generation (RAG) pipelines for efficient information retrieval and real-time problem-solving in diverse applications.

Krip.ai

May 2025 - June 2025

Role: *ML Intern*

- I worked on a **College Recommendation System** that utilized user data to suggest optimal college options using machine learning and ranking algorithms
- Additionally, I developed a **Tech Stack Recommender** that analyzed project requirements to suggest the most suitable technologies and tools.

Alumna.ai

August 2025 - April 2026

Role: *AI/ML Intern*

- Built **web-integrated college recommendation pipelines** leveraging intent detection and RAG-style workflows to deliver accurate, real-time academic guidance.

TECHNICAL SKILLS

Languages: Python, Java, C, HTML, CSS, Javascript

Databases: MySQL

Technologies/Frameworks: Scikit-learn, Pytorch, TensorFlow, NumPy, Pandas, Matplotlib, LangChain

Machine Learning : Supervised/Unsupervised Learning, Data Visualization, Large Language Model

ACHIEVEMENTS

- MLXLR-8 Hackathon 2nd Runner-up
- Winner in the Data Visualization Competition at TECHNOVANZA 2025, a prestigious national-level technical symposium
